

FOOD SAFETY POLICY

The basic objective of the activity of the Association of Fruit Producers "Stryjno Sad" is to guarantee the highest quality of offered fruit along with respect for the interests of suppliers and customers as well as promotion of the company on local, national and international markets

Sorting, packaging, storage and then distribution of finished products are carried out in accordance with applicable sanitary requirements, legal regulations and appropriate health safety. A very important point of our policy is customer care, which is implemented through the following goals:

- Expanding the group of suppliers and recipients, including foreign ones.
- Maintaining the principles of Good Manufacturing and Hygiene Practice (GMP/GHP) and the Hazard Analysis and Critical Control Points System (HACCP).
- Maintaining and improving the BRC food safety standard.
- Improving the company's infrastructure.
- Cooperation with other companies for better, more effective sales.
- Maintaining and improving the requirements of the GLOBAL G.A.P standard and introducing the LEAF MARQUE standard both at the company's headquarters and on fruit farms.
- Supervision of the production process, maintaining the authenticity of products
- Training of employees, including in terms of external fruit specifications (from customers).
- Commitment to improving food safety and quality culture.
- Maintaining sales of the club apple variety.
- Strengthening cooperation with customers
- Providing safe packaging materials.
- Adaptation to legal standards in the field of food safety.
- Constant contact and cooperation with customers - monitoring the level of satisfaction with services.

Improving the quality of received and sold fruit. In view of the above objectives, we undertake to meet the requirements for the production of safe, legal and authentic products of a specified quality and responsibility for customers. Reliable work allows us to build the image of a reliable partner in domestic and foreign trade.

All persons employed in the plant are familiar with the content of this food safety policy and are fully aware of their responsibility for the safety of the products manufactured. The standard is presented to employees once a year, during annual training. This document is also available on the website www.stryjno-sad.pl
